

Commercial grade displays

15" – 21"

SPECIFICATIONS			
Frame types	A range of commercial grade open frame and framed casings in metal and plastic. Open frame casings have been designed to offer maximum flexibility for mounting and cable management. Frames have been designed for a slim profile and sleek modern designs that are highly resistant to dust and easy to clean.		
Interactive options	PIR motion sensor module, button modules and touchscreen options on all our commercial grade displays. Modules with open frame displays can be provided on trailing leads.		
Operation	Monitor models come with HDMI/VGA. Displayers enable a range of options including continuous playback of content, simple interactivity via PIR and button(s) and full multi-layer touchscreen interactivity. All displayers support power-on autostart.		
Memory	SD card as standard, internal memory options	Formats	AVI, MPEG, JPEG, MP3
Accessories	HD displays support thermal printer and barcode scanner HD displays support power over Ethernet
